CGEIT Program Accredited Under ISO/IEC 17024:2003

The American National Standards Institute (ANSI) has accredited the CGEIT certification under ISO/IEC 17024:2003, General Requirements for Bodies Operating Certification Systems of Persons. ANSI, a private, nonprofit organization, accredits other organizations to serve as third-party product, system and personnel certifiers. ISO/IEC 17024 specifies the requirements to be followed by organizations certifying individuals against specific requirements. ANSI describes ISO/IEC 17024 as "expected to play a prominent role in facilitating global standardization of the certification community, increasing mobility among countries, enhancing public safety and protecting consumers.ANSI's accreditation:
❚ Promotes the unique qualifications and expertise that ISACA's certifications provide
❚ Protects the integrity of the certifications and provides legal defensibility
❚ Enhances consumer and public confidence in the certifications and the people who hold them
❚ Facilitates mobility across borders or industries

Accreditation by ANSI signifies that ISACA's procedures meet ANSI's essential requirements for openness, balance, consensus and due process. With this accreditation, ISACA anticipates that significant opportunities for CGEITs will continue to present themselves around the world.

ABOUT THE CGEIT EXAM

The CGEIT exam consists of 120 multiple-choice questions that cover six job practice domains. The task and knowledge statements within each domain are intended to depict the tasks performed by individuals who have a significant management, advisory, or assurance role relating to the governance of IT and the knowledge requirements to perform these tasks. They are also intended to define the roles and responsibilities of the professionals performing IT governance work. The job practice domains and percentages below indicate the emphasis of questions that will appear on the exam.

Job Practice Domains

The job practice consists of task and knowledge statements, organized by domains. The domains and their definitions are as follows:
1. **IT Governance Framework (25 percent)—**Define, establish and maintain an IT governance framework (leadership, organizational structures and processes) to: ensure alignment with enterprise governance; control the business information and information technology environment through the implementation of good practices; and ensure compliance with external requirements.
2. **Strategic Alignment (15 percent)—**Ensure that IT enables and supports the achievement of business objectives through the integration of IT strategic plans with business strategic plans and the alignment of IT services with enterprise operations to optimize business processes.
3. **Value Delivery (15 percent)—**Ensure that IT and the business fulfill their value management responsibilities: IT-enabled business investments achieve the benefits as promised and deliver measurable business value both individually and collectively, that required capabilities (solutions and services) are delivered on time and within budget, and that IT services and other IT assets continue to contribute to business value.
4. **Risk Management (20 percent)**—Ensure that appropriate frameworks exist and are aligned with relevant standards to identify, assess, mitigate, manage, communicate and monitor IT-related business risks as an integral part of an enterprise's governance environment.
5. **Resource Management (13 percent)**—Ensure that IT has sufficient, competent and capable resources to execute current and future strategic objectives, and keep up with business demands by optimizing the investment, use and allocation of IT assets.
6. **Performance Measurement (12 percent)**—Ensure that business-supporting IT goals/objectives and measures are established in collaboration with key stakeholders, and that measurable targets are set, monitored and evaluated.

CGEIT exam questions are developed and maintained to ensure that they accurately test an individual's proficiency in the governance of enterprise IT. For a description of task and knowledge statements for each area, please refer to *www.isaca.org/cgeitjobpractice.*

REQUIREMENTS FOR EARNING CGEIT CERTIFICATION

To earn the CGEIT credential, an individual must:

1. Achieve a passing score on the CGEIT exam. A passing score on the CGEIT exam, without completing the required work experience as outlined below, is only valid for five years. If the applicant does not meet the CGEIT certification requirements within the five year period, the passing score is voided.

2. Submit an application with verified evidence of five years of work experience. An applicant must provide evidence of management, advisory or oversight experience associated with the governance of the IT-related contribution to an enterprise. Five years of such experience is required and is defined and described specifically by the CGEIT job practice domains and task statements. Work experience must be gained within the 10-year period preceding the application date for certification or within five years from the date of initially passing the exam.

Specifically, an applicant must have:
- ▮ A minimum of one year of experience relating to the development and/or maintenance of an IT governance framework (CGEIT domain one [1]) and;

- ▮ Substitutions for IT Governance Experience (two years maximum)—To recognize other management experience and/or the achievement of specific IT governance-related credentials, advanced (postgraduate) degrees and certificates for up to two years of the five years of required IT governance experience can be substituted. Specifically, each of the following will qualify (substitute) for one year of IT governance experience, with a maximum of two years of substitutions being accepted.
  - – Other Management Experience—Other management experience that is not specific to IT governance, such as performing consulting, auditing, assurance or security management related duties will qualify for up to one (1) year of substitution.
  - – Specific Credentials, Advanced (Postgraduate) Degrees and Certificates—Credentials (in good standing), advanced (postgraduate) degrees and certificate programs which include an IT governance and/or management component or are specific to one or more of the CGEIT domains will qualify for up to one year of substitution. CGEIT EXAM ADMINISTRATION

Admission Ticket

Approximately two to three weeks prior to the CGEIT exam date, candidates will receive a physical admission ticket and an e-ticket from ISACA. The ticket will indicate the date, registration time and location of the exam, schedule of events for that day and a list of materials candidates must bring with them to take the CGEIT exam. Candidates can use either a printout of the e-ticket or the hard copy admission ticket for entry into the exam. Candidates are not to write on the admission ticket.

Please note: In order to receive an admission ticket, all fees must be paid. Admission tickets are sent via hard copy and e-mail to the current postal mailing and e-mail address on file. Only candidates with an admission ticket and acceptable form of government-issued ID will be admitted to take the exam, and the name on the admission ticket must match the name on the government-issued ID. The hard copy admission ticket or print out of the e-ticket is valid for admission into the exam. If a candidate's mailing and/or e-mail address changes, he/she should update his/her profile on the ISACA web site (*www.isaca.org*) or contact *exam@isaca.org*.

Candidates must locate and note the specific registration and exam time on their admission ticket. **No candidate will be admitted to the test center once the chief examiner begins reading the oral instructions, approximately 30 minutes before the exam begins.** Any candidate who arrives after the oral instructions have begun will not be allowed to sit for the exam and will forfeit his/her registration fee. A candidate can use his/her admission ticket only at the designated test center on his/her admission ticket.

Candidates will be admitted to the test center only if they have a valid admission ticket and an acceptable form of identification (ID). An acceptable form of ID must be a current and original government-issued ID that contains the candidate's name, as it appears on the admission ticket, and the candidate's photograph. The information on the ID cannot be handwritten. All of these characteristics must be demonstrated by the single piece of ID provided. Examples include, but are not limited to, a passport, driver's license, military ID, state ID, green card and national ID. Any candidate who does not provide an acceptable form of ID will not be allowed to sit for the exam and will forfeit his/her registration fee. IDs will be checked during the exam.

Any candidate who has not received his/her admission ticket by 1 June 2012, should contact the ISACA certification department immediately at *exam@isaca.org* or via phone at +1.847.660.5660.

No food or drinks are allowed at any exam site, unless special arrangements have been made in advance. Please refer to "Special Arrangements" on page 6.

Misconduct

Candidates who are discovered engaging in any kind of misconduct, such as giving or receiving help; using notes, papers or other aids; attempting to take the exam for someone else; using any type of communication device including cell phones during the exam administration; or removing the exam booklet, answer sheet or notes from the testing room will be disqualified and may face legal action. Candidates who leave the testing area without authorization or accompaniment by a test proctor will not be allowed to return to the testing room and will be subject to disqualification. The testing agency will report such irregularities to ISACA's CGEIT Certification Committee.

Security

Candidates are not allowed to bring any type of communication devices into the test center. **If candidates are observed with any communication device (i.e., cellular phone, PDA, BlackBerry) during the exam adminstration, their exams will be voided and they will be asked to immediately leave the test site.** Neither ISACA or its testing vendor takes responsibility for personal belongings of candidates. ISACA will not assume responsibility for stolen, lost or damaged personal property. To review the Personal Belongings Policy, please visit *www.isaca.org/cgeitbelongings*.

CGEIT EXAM RESULTS

Receiving Your Score

Please notify the certification department immediately if registration contact information changes. **Approximately eight weeks after the test date, the official exam results will be mailed to candidates.** Additionally, with the candidate's consent during the registration process, an e-mail message containing the candidate's pass/fail status and score will be sent to the candidate. This e-mail notification will only be sent to the address listed in the candidate's profile at the time of the initial release of the results. To ensure the confidentiality of scores, exam results will not be reported by telephone or fax. To prevent e-mail notification from being sent to spam folders, candidates should add *exam@isaca.org* to their address book, whitelist or safe-senders list.

Reporting of Your Test Results

Candidate scores are reported as a scaled score. A scaled score is a conversion of a candidate's raw score on an exam to a common scale. ISACA uses and reports scores on a common scale from 200 to 800. For example, the scaled score of 800 represents a perfect score with all questions answered correctly; a scaled score of 200 is the lowest score possible and signifies that only a small number of questions were answered correctly. A candidate must receive a score of 450 or higher to pass the exam. A score of 450 represents a minimum consistent standard of knowledge as established by ISACA's CGEIT Certification Committee. A candidate receiving a passing score may then apply for certification if all other requirements are met.

Passing the exam does not grant the CGEIT designation. To become a CGEIT, each candidate must complete all requirements as listed on page 4.

Retaking the CGEIT Exam

A candidate receiving a score of less than 450 has not passed and can retake the exam by registering for and paying the appropriate exam fee for any future exam administration. To assist with future study, the results letter each candidate receives will include a score analysis by content area. There are no limits to the number of times a candidate can take the exam.

MAINTAINING CGEIT CERTIFICATION

A major strength of any professional designation is a program of continuing professional education (CPE) that the individual must follow to retain certification. To maintain CGEIT certification, individuals must comply with a CPE policy (*www.isaca.org/cgeitcpepolicy*) and abide by ISACA's Code of Professional Ethics (*www.isaca.org/ethics*). Together, these programs help ensure that CGEITs remain current with IT governance practices and knowledge, and demonstrate high professional principles.

The CPE policy requires the individual to earn and submit a minimum of 20 CPE hours and to pay a maintenance fee each year. In addition, a minimum of 120 CPE hours must be earned and submitted during a fixed three-year certification period. To more easily meet the three-year cycle requirement of 120 hours, it is suggested that individuals earn an average of 40 CPE hours annually. **Failure to comply with this policy will result in revocation of an individual's certification**. All certificates are owned by ISACA. If an individual is approved for certification and subsequently revoked, the individual must destroy the certificate.

More than 94% of CGEITs renewed their certification last year. This is an exemplary statistic that demonstrates the importance CGEITs place on retaining the CGEIT credential.
